RAILROAD COMMISSION OF TEXAS

Notice of Application and Draft Permit for an Anthropogenic Carbon Dioxide Geologic Storage & Associated Injection Facility Project

Bayou Bend CCS LLC, 1500 Louisiana Street, 11th Floor, Houston, Texas 77002 has applied for a permit to construct and operate an anthropogenic CO_2 geologic storage facility, proposed to be located in Jefferson County, Texas. The proposed anthropogenic CO_2 Geologic Storage Facility, tracking no. 58339, is for five (5) Class VI injection wells (SL20220050 W1, SL20220050 W2, SL20220050 W4, SL20220050 W5, and SL20220050 W6) that will be used to inject CO_2 for the purpose of underground storage. The proposed injection facility project requires, among other things, that the permittee monitor the injection project and submit periodic reports to the Railroad Commission (RRC). Ongoing monitoring requirements are designed to ensure protection of underground sources of drinking water. The individual locations of the CO_2 injection wells are shown in the table below.

Table: Injection Well Locations

Well Name & No.	Latitude & Longitude (NAD 83)
SL20220050 W1	29.5920225, -93.89526008
SL20220050 W2	29.59201108, -93.89528519
SL20220050 W4	29.5920358, -93.89528395
SL20220050 W5	29.59203393, -93.89523497
SL20220050 W6	29.59200921, -93.89523621

Copies of the application, draft permit, and fact sheet can be viewed on the RRC website at https://www.rrc.texas.gov/oil-and-gas/applications-and-permits/injection-storage-permits/co2-storage/co2-notices/ or at the RRC's Houston office located at 1919 North Loop West, Suite 620, Houston, Texas 77008. The office is open 8 a.m. – 5 p.m. (all times are Central Time Zone). Additionally, you may view the material at RRC Headquarters, Technical Permitting, 1701 N. Congress, Austin, Texas 78701 by emailing SIP@rrc.texas.gov.

Public Comment

The RRC shall hold a public hearing whenever it finds, on the basis of requests, a significant degree of public interest in a draft permit. The public comment period will begin **on Thursday, November 5, 2026, and close at 11:59 p.m. on Saturday, December 19, 2026. All comments should reference tracking no. 58339.**

Interested persons may submit comments or request a public meeting during the public comment period. An interested person is any person who expresses an interest in the application, permit, or Class VI underground injection control well.

Affected persons may protest. An affected person is a person who, as a result of activity sought to be permitted, has suffered or may suffer actual injury or economic damage other than as a member of the general public. An affected person may participate as a party in a contested case hearing concerning the application.

Protests must be submitted in writing, either by mailing or delivering to the address below or by using the online form and must also include a statement of basis for affected person status. Protests must be received by the Oil and Gas Division within 30 days of the date of receipt of the application by the division, receipt of individual notice, or last publication of notice, whichever is later.

Public comments and protests can also be submitted by the following methods.

1. Electronic mail to: SIP@rrc.texas.gov;
2. United States Mail to:
   Railroad Commission of Texas
   Oil and Gas Division
   Technical Permitting
   P. O Box 12967
   Austin, Texas 78711-2967
3. Submitted using online Public Participation Form https://www.rrc.texas.gov/oil-and-gas/applications-and-permits/injection-storage-permits/co2-storage/class-vi-comment-form/
4. File size restrictions may apply to comments submitted online.

For more information, contact the RRC's Special Injection Permits Unit at 512-463-6703 or SIP@rrc.texas.gov.
