AUSTIN, TEXAS

October 4, 1967

MEMORANDUM TO THE COMMISSION:

DOCKET NO. 6-57,848

IN RE:

Commission called hearing under Article 6005, pertaining to the proper plugging of the Arthur Vaughn et al E. W. Clement Well No. 4, East Texas Field, Gregg County, Texas

DATE OF HEARING:

September 21, 1967

APPEARANCES:

None

The subject well is one of the deviated wells in the East Texas Field, and the operator, Arthur Vaughn, has been named as the defendant in a number of slant well activities in the East Texas Field.

The Attorney General's file indicated several other owners of interests in the well, but on July 13, 1966, in connection with two of the cases pending in Travis County, Arthur Vaughn filed an affidavit stating that he personally had the sole responsibility for drilling and operating the subject well.

It is the recommendation of the writer that order be issued to Arthur Vaughn to plug the subject well.

Respectfully submitted,

J. Brooks Peden
J. Brooks Peden
Senior Legal Examiner
