2025 ANNUAL REPORT

The Regulations at 16 TEXAS ADMIN. CODE §12.108(b) require that each permittee shall pay an annual fee for each acre of bonded land within a permit area, along with a fee of \$6,170.00 for each permit in effect on December 31, 2025. The amount of the annual per acreage fee is \$12.85 for each acre of land within a permit area covered by a reclamation bond that has met the requirements of Phase I release under §12.313(a)(1) and \$29.80 for each acre that has not met those requirements. Please complete this form and return it with the fee payment (checks should be made payable to the Railroad Commission of Texas) to the Surface Mining and Reclamation Division by no later than March 15, 2026.

If multiple permits exist for a permittee, please submit a **separate completed form for each permit**. This will ensure that the fee payment can be properly accounted for by permit number. The acreages submitted in this report should reflect only the twelve-month period of the calendar year being reported for the permit and not cumulative totals for the mine operations.
