Allowable must be reinstated until the covid19 crisis passes at least. I've been a geologist in this business for 40 years. A 10% cut to save everything shouldn't have to even be discussed. To not implement a 10% cut in production would make us fools. Do it, this is what's right regardless of what EVERYONE does. If the Saudis will do it Russia should too but if the Saudi's will cut too we have to do it. EOG's foolish stance is irrelevant- do what's needed and right for Texas and the United States.
