

RAILROAD COMMISSION OF TEXAS

OPERATIONS DIVISION

ADDENDUM #1

DATE: July 10, 2026

IFB: 455-26-1030

TITLE: Audio-Visual Broadcasting Services

RESPONSE DEADLINE: July 15 at 2:00 PM Central Time

Item 1:

The purpose of this Addendum is to publicize submitted questions with answers.

No.	QUESTIONS	ANSWERS
1	The Vendor Experience and Qualifications section requires Respondents to include at least three (3) projects within the past five (5) years that were "delivered to one or more state oil and gas regulatory agencies in the U.S." As written, this requirement appears to limit competition to a very small number of vendors — potentially a single incumbent — rather than to vendors qualified to perform the work. Will RRC amend this requirement to accept equivalent experience delivering live audio-video webcasting, multi-camera broadcast production, and hosted video archive services of similar size and scope to government agencies, public bodies, or comparable clients, regardless of whether the client was a state oil and gas regulatory agency?	See Addenda Item 2 below.
2	If the requirement is not amended, please confirm whether experience serving other governmental or public-meeting clients (e.g., municipalities, state agencies outside oil and gas regulation, or large public events with live broadcast requirements) will be considered responsive to the minimum qualifications.	See Addenda Item 2 below.

3	Please confirm that responses, including the signed Competitive Bidding Form and completed VetHUB Subcontracting Plan (HSP) form, are to be submitted by email only to this address, with no hard-copy or sealed submission required.	All forms should be submitted to the point of contact email address provided in the solicitation. Hard copies are not required.
---	---	---

Item 2:

The purpose of this Addendum is to Amend “The Vendor Experience and Qualifications section” to the following:

FROM:

Respondent shall include examples and detailed descriptions of at least three (3) projects delivered by Respondent within the past five (5) years that demonstrate Respondent's ability and qualifications to deliver the goods and services required under a contract arising from this IFB. Respondent shall include projects that represent delivery of information technology services, similar in size and scope to that of the project within this IFB, and that were delivered to one or more state oil and gas regulatory agencies in the U.S.

TO:

Respondent shall include examples and detailed descriptions of at least three (3) projects delivered by Respondent within the past five (5) years that demonstrate Respondent's ability and qualifications to deliver the goods and services required under a contract arising from this IFB. Respondent shall include projects that represent delivery of information technology services, similar in size and scope to that of the project within this IFB, and that were delivered to one or more state agencies in the U.S.

All other aspects of the **IFB #455-26-1030** remain as is.
