

# RAILROAD COMMISSION OF TEXAS

## NOTICE TO OIL AND GAS AND PIPELINE OPERATORS

### Hurricane Beryl Outlook

The National Weather Service is projecting Hurricane Beryl to enter and move across the southwestern Gulf of Mexico this weekend. Potential impacts could affect South Texas into Central Texas with significant rainfall throughout the coastal plain.

The Railroad Commission of Texas (RRC) advises all operators under the RRC's jurisdiction in areas of potential impact to take the following actions:

- Monitor local, state and national weather reports for updates on potential severe weather impacts;
- Heed all watches, warnings, and orders issued by local emergency officials;
- Secure all personnel, equipment, and facilities to prevent injury or damage; and,
- Monitor and prepare operations for potential impacts, as safety permits.

The RRC maintains a 24-hour, toll-free emergency line, 844-773-0305, to report emergencies, including leaks or spills and damage to gas pipelines.

In addition, operators can monitor Texas highway conditions during potential flooding on the Drive Texas website at [www.DriveTexas.org](http://www.DriveTexas.org).
