

RAILROAD COMMISSION OF TEXAS

Notice of Request for Public Comment on the Intended Issuance of an Amended Permit for a Geologic Storage Facility & Associated Injection of Anthropogenic Carbon Dioxide

The Railroad Commission of Texas (RRC) is accepting public comment on a Carbon Dioxide (CO₂) Underground Storage Project located in Ector County, Texas [Oxy Low Carbon Ventures, LLC, 5 Greenway Plaza, Suite 110, Houston, Texas 77046] under the Texas Water Code Chapter 27, Texas Natural Resources Code Chapter 91, 16 Texas Administrative Code §5.204(a)(4)(F) and §5.204 Part 1, Chapter 5, Subchapters A and B.

The proposed permit amendment to the anthropogenic CO₂ Geologic Storage Facility, tracking no. 59502, is for three (3) Class VI injection wells (BRP CCS1, BRP CCS2 and BRP CCS3) that will be used to inject CO₂ for the purpose of underground storage. The injection facility project requires, among other things, that the permittee monitor the injection project and submit periodic reports to the RRC. Ongoing monitoring requirements are designed to ensure protection of underground sources of drinking water. The individual location of the CO₂ injection well is shown in the table below.

Injection Well Location	
Well Name & No.	Latitude/Longitude (NAD 83)
BRP CCS 1	31.769743, -102.730903
BRP CCS 2	31.757690, -102.729692
BRP CCS 3	31.768079, -102.713033

Copies of the application, draft permit and fact sheet are available on the RRC website at <https://www.rrc.texas.gov/oil-and-gas/applications-and-permits/injection-storage-permits/co2-storage/co2-notices>, or at the RRC's Midland office located at 10 Desta Drive, Suite 500 E, Midland, Texas 79705. The office is open 8 a.m. – 5 p.m. To review the administrative record, contact Jeffery Morgan, District Director of the RRC Oil and Gas Division - District 08, by phone at 432-684-5581 or by email at midland@rrc.texas.gov. You can also view the administrative record by coordinating a visit to the RRC Headquarters, Technical Permitting Section, 1701 N. Congress, Austin, Texas 78701, or by emailing SIP@rrc.texas.gov.

The public comment period will begin on **June 17, 2026, and close at 11:59 p.m. CST on July 31, 2026**. The public can submit comments online on the RRC website at <https://www.rrc.texas.gov/oil-and-gas/applications-and-permits/injection-storage-permits/co2-storage/class-vi-comment-form>. File size restrictions may apply to comments submitted online. **All comments should reference tracking no. 59502.**

Public comments & protests can also be submitted by the following methods.

1. Electronic mail to SIP@rrc.texas.gov; or
2. United States Mail to:
Railroad Commission of Texas
Oil and Gas Division
Technical Permitting,
Attn: Special Injection Permits Unit
P. O Box 12967
Austin, Texas 78711-2967

Affected persons may protest, and interested persons may request a hearing on the application. Protests and requests for a hearing must be filed in writing and must be mailed or delivered to the Railroad Commission of Texas, Oil and Gas Division, Technical Permitting, P.O. Box 12967, Austin, Texas 78711-2967 or emailed to SIP@rrc.texas.gov . Protests and requests for a hearing must be received by the Oil and Gas Division within 30 days of the date of receipt of the application by the division, receipt of individual notice or last publication of notice, whichever is later.

An affected person is someone who, as a result of activity sought to be permitted, has suffered or may suffer actual injury or economic damage, other than as a member of the general public. An affected person may present evidence at a contested case hearing to show why a permit should not be issued.

The RRC shall hold a public hearing whenever it finds, on the basis of requests, a significant degree of public interest in a draft permit.

For more information, contact the RRC's Special Injection Permits Unit by phone at 512-463-7098 or by emailing SIP@rrc.texas.gov.
