Oversight and Safety Division
Alternative Fuels Safety Department

**NOTICE TO ALTERNATIVE FUELS LICENSED TRANSPORT
COMPANIES**

State of Disaster in Texas Waiver Termination

As of September 1, 2021, the Railroad Commission of Texas' (RRC) waiver issued in March 2020 for liquefied petroleum gas (LPG and propane) transport drivers will terminate.

During the State of Disaster, individuals required to be certified as a transport driver for the safe transportation of liquefied petroleum gas (LPG and propane) were issued a waiver for certain regulatory requirements from the RRC. The waiver allowed transport drivers to operate a transport registered to a licensed company without taking the transport driver certification exam.

Beginning September 1, 2021, all drivers must take and pass the required certification exam prior to resuming or beginning activities requiring certification.

If you have questions regarding this notice, please contact the RRC at training-exams@rrc.texas.gov.
